KEY FEATURES

PANORAMIC GLASS DESIGN:

Expansive glass front maximises your view of the fire, adding warmth and elegance to your home.

AIR CURTAIN TECHNOLOGY:

Keeps the glass cleaner for longer, so you can enjoy a clear view without the fuss.

EFFICIENT BURN:

Double combustion technology ensures lower wood consumption and longer burning times by reigniting gases from the initial burn.

PRECISE CONTROL:

Top and bottom air inlets offer easy fire control for a comfortable and efficient burn.

DURABLE INTERIOR:

Vermiculite panels and a firebrick floor improve heat retention and protect the fireplace over time.

THICK GAUGE STEEL GRATE:

Built to endure the demands of everyday use.

CONVENIENT ASH REMOVAL:

A removable ashtray simplifies cleaning.

I120/F120 MODELS are currently the largest hinged-door, wood burning, closed-combustion fireplaces available in South Africa.
